**To Save a Valuable Building
and Keep It Usable—**

**VOTE 'YES' ON THE
COURTHOUSE
BOND ISSUE REFERENDUM**

Join the hundreds of your fellow citizens who recognize the need and advisability of repair and rehabilitation NOW of the Rock Island county courthouse. A dollar spent at this time will SAVE THREE later on.

**The Facts Are:
Your Courthouse Is
WEARING OUT!**

The foundation of the building is sound, and rests on solid rock. The walls of stone are sturdy and good for many more years. BUT...

1. Plaster is down.
2. Rain pours through ceilings and walls. (Downspouts are in the walls now; the copper sheathing is leaky, and tick-pointing is needed to seal open joints in the masonry).
3. Serious fire hazards exist.
4. Valuable records are kept in exposed places.
5. Courtroom facilities are inadequate and inconvenient.

**The Wear and Tear
Goes On—
The Building Is Shabby**

All This Can Be Corrected Now, If You

VOTE 'YES' TUESDAY

—Courthouse and Jail Committee
Rock Island County Board.
—C. Arnold Serenius, Chairman
Roger Potter
Glen Bull.

**1948-1953
4 COURTHOUSE REFERENDUMS
FAIL**

- Roof leaks.
- Downspouts faulty*
- Electrical issues.
- Cited by State Fire Marshal for:
 - Open Stairway
 - Open Rotunda

*Fixed in 1958—other issues remain a problem even today.

Citizen's Advisory Chairman after 4th Courthouse referendum fails:

“...county citizens are opposed to repairing the courthouse and that no action will be taken on a large scale until the present building is beyond repair and a new one is needed--at much higher cost.”

Boeye's Comment.

Robert W. Boeye, chairman of the citizen's advisory committee that recommended the bond issue, had this to say about the election results:

“People apparently are sick and tired of anything that has anything to do with increasing taxes”

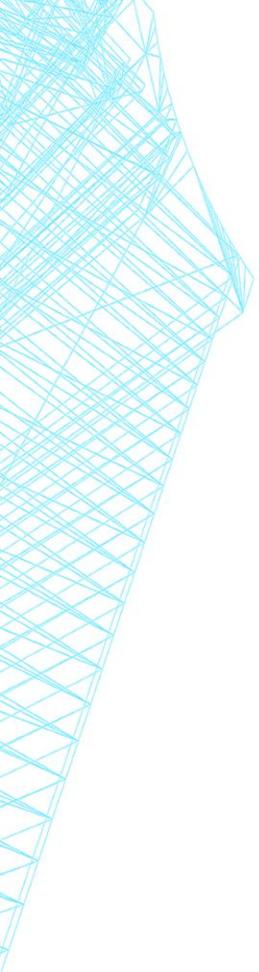

He said he noticed no organized movement against the bond issue

and concluded from this that the vote was “an expression of just how the average taxpayer feels at this time”

Boeye said he believed county citizens are opposed to repairing the courthouse and that no action will be taken on a large scale until the present building is beyond repair and a new one is needed--at much higher cost
