## County Board Members:

On behalf of the Budget Committee, we are pleased to submit the proposed 2009-10 Appropriations Ordinance for your review and consideration. This proposal includes our recommended plans for services during the year ahead. It also outlines a plan to finance these services.

I wish to offer my appreciation to my fellow Budget Committee members. The efforts of many people are necessary to prepare the document you have before you. The assistance, expertise and insight of Ms. Diana Robinson, County Auditor is particularly appreciated. Ms. Shelly Chapman, County Board Executive Assistant is another essential member of the team that makes this document possible. Most importantly, we wish to again thank the Elected Officials, Department Heads, and the employees of Rock Island County. The funding requests that were presented continued to indicate an elevated level of cost consciousness and fiscal responsibility. Their cooperation and their talent and ability make it possible to face the challenges that lie before us.

The Budget Committee set five (5) goals with the top two being to present a balanced budget and to minimize adverse employee impacts. Our definition of a balanced budget is a budget in which revenues meet or exceed expenditures in any given year. We wish to continue to maintain a minimum funding reserve that equals expenses for a 60 day period. Even after the initial round of hearings, it was necessary for the Budget Committee to make a final reduction of all General Fund line items of 2.5% in order to balance the budget.

The main challenges that faced the Budget Committee in development of a fiscally sound appropriation document included loss of State supported revenue and economic based revenues.

## Rock Island County Fund Structure

Governmental Funds- Most of the County's basic services are included in governmental funds. The General Fund is the main operating fund of the county and the largest of the governmental funds. Fund income is comprised of various sources for non-dedicated purposes. Other major governmental funds include Hope Creek and the Capital Projects Fund. Remaining governmental funds, which include special revenue funds and the debt service fund are considered non-major funds.

Proprietary Funds- proprietary funds consist of enterprise funds and internal service funds. These funds account for operations that are conducted in manner similar to private business in which costs are charged as a user fee. The County's has no enterprise funds. The internal service funds are used to account for the provision of the health insurance for employees and retirees.

Fiduciary Funds- Fiduciary funds are used for resources held for the benefit of parties outside the government. The County's fiduciary funds consist of agency funds, which are used to account for monies received, held and distributed, as required by statute. These funds are not appropriated and are not included in the County's budget documents.

On November 30th, the FY 2010 budget was adopted by the County Board.

On December 1<sup>st</sup>, the new fiscal year began.

## **County Accounting Structure**

The County's finances are identified by funds for both accounting and budgeting purposes for accounting purposes, funds are segregated into three main fund types: governmental, proprietary, and fiduciary. The chart on the previous page illustrates the County's fund structure.

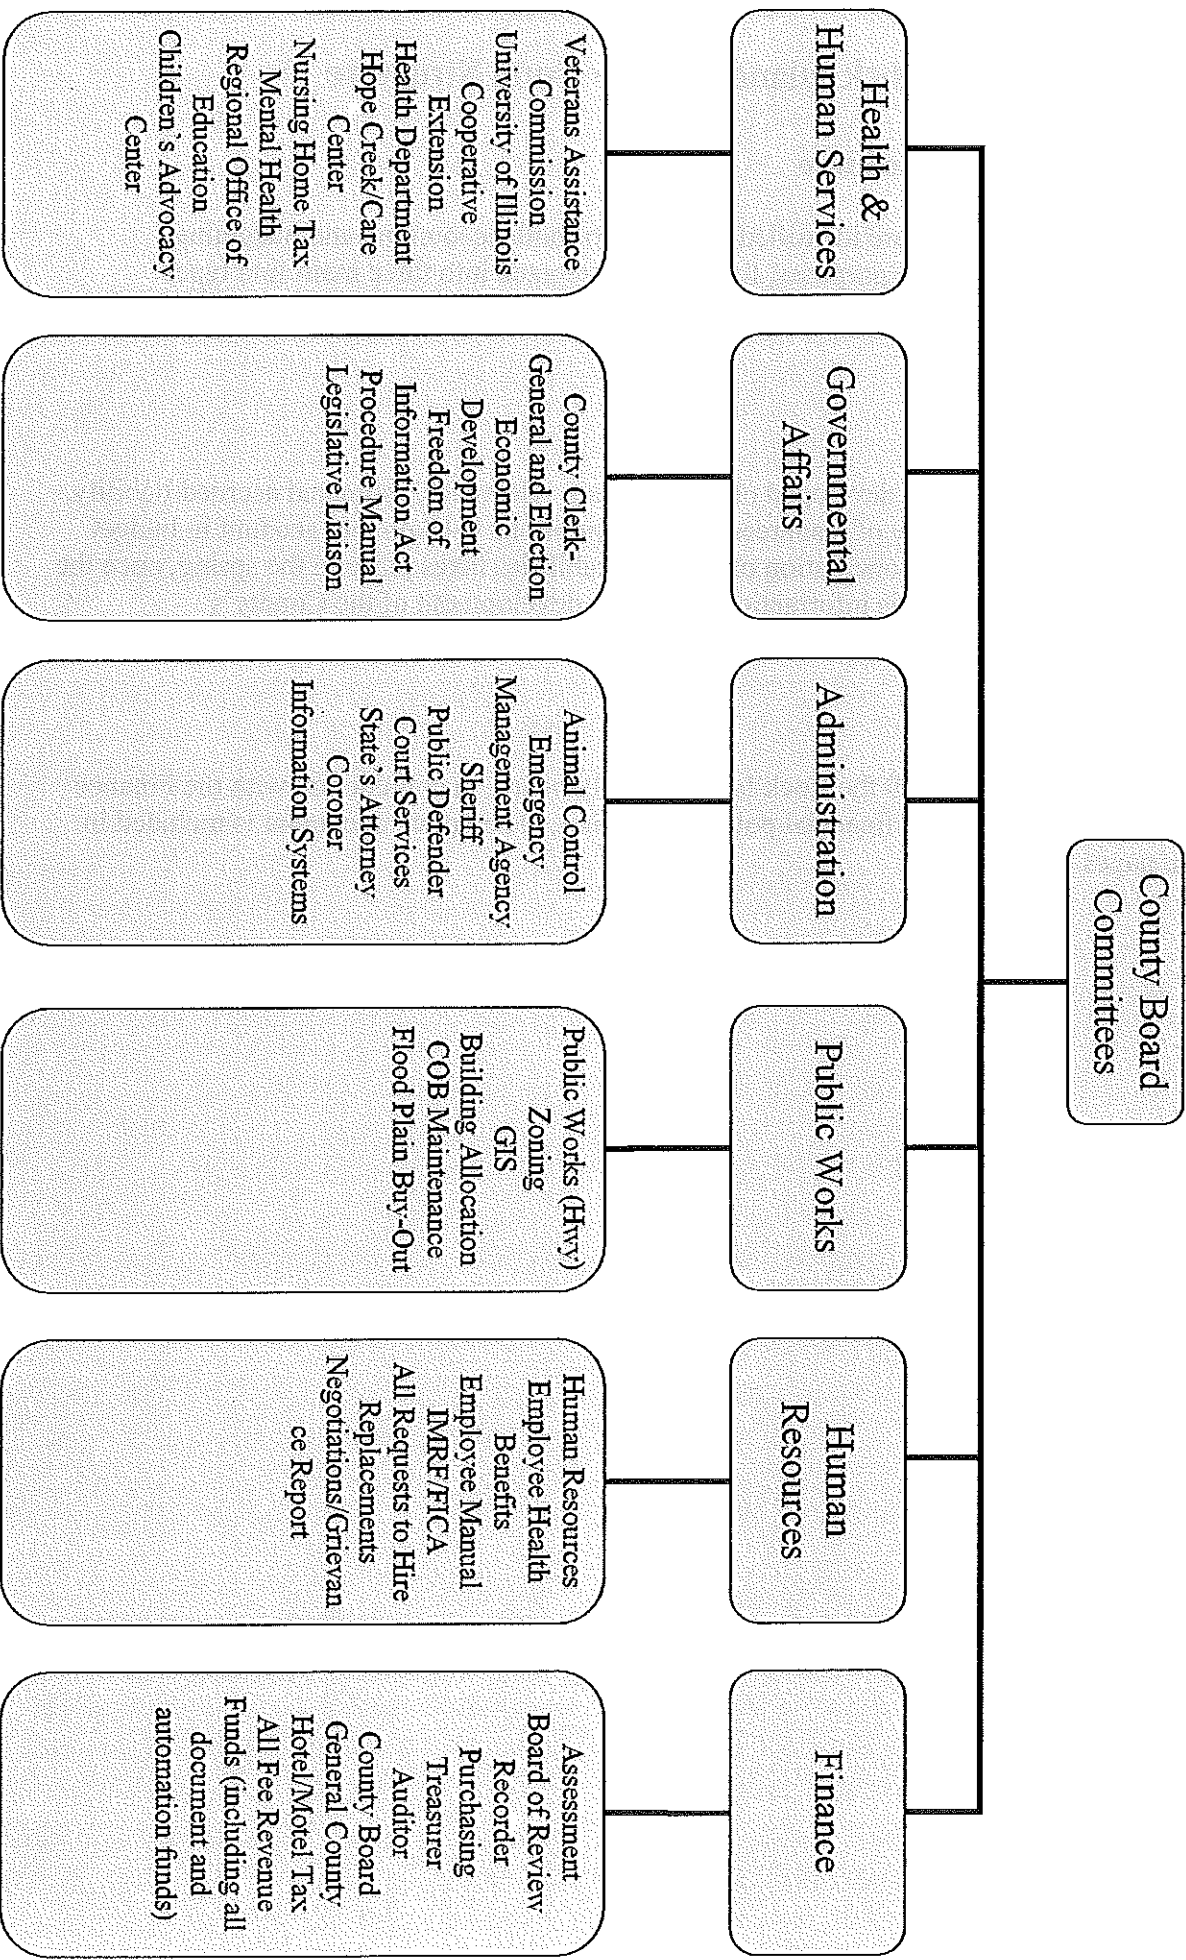

## **Basis of Budgeting**

The County's budget is developed on a cash basis. However, estimated accrued liability, as it impacts availability of resources for appropriations is taken into account in budget development. Final reconciliation of accrued liabilities takes place in the spring, once the prior year is closed. This information is used in development of the County's comprehensive annual financial report (CAFR).

## **Financial Policies**

During Fiscal Year 2009 the Rock Island County board, in conjunction with the Finance Department, developed financial policy guidelines. The policy document is included in the pages to follow.

## GOAL SETTING FOR ROCK ISLAND COUNTY, ILLINOIS

**Rock Island County Government's Mission: Build the Future and Improve the Quality of Life for Our Community.**

In January 2008, the County Board, Elected Officials and Department Heads met in an effort to prepare a strategic plan in order to achieve elements of an effective government.

The mission statement above will be used in guiding the decisions in order to build the future of Rock Island County that provides; a high quality of life for our community, that provides a desirable place to live, work and raise families and by providing creative and cost-effective services.

The following goals are listed as top priority first:

\*Develop a County Administrative Court House Center. This would include developing a realistic timeline; market the concept to the public and the potential use of tax dollars to create a campus as part of the project and determining the impact of the project on jobs and economic development.

\*Develop a Juvenile Center potentially as part of the Administrative Center. The cost of housing juveniles has been very costly for the County over the years and this center would allow for a cost savings to the County for the housing and eliminate transportation costs of taking juveniles to the various other facilities.

\*Implement a passenger rail system that would connect the Quad Cities area to Chicago.

\*Increase the job market in the Quad Cities, especially manufacturing jobs. The Quad Cities area has always had a very productive work force and highly skilled labor force.

\*Provide more childhood mental health services as well as services for mentally ill adults. Rock Island County currently supports the 708 Mental Health Board with a County Board Member on the Board and the currently levy of \$1.3 million dollars helps support many programs under the Mental on the Health Board.

\*Provide education/training in management for county officials and department heads. With the ever changing role of government and its ability to lead, the goal of Rock Island County is to keep our management informed and educated to encourage leadership at its best.

\*Improve the County's payroll system; pay those that are paid back; determine problems and suggest solutions; develop the same/consolidate the County payroll system and develop one payroll log. Due to the number of unions representing various departments and each having different circumstances the adoption of different settlements has led to difficulty in developing a payroll system that can handle various situations that have been adopted over the years.

\*Continue a community-wide effort to retain the Rock Island Arsenal. This facility at one time was one of the top employers for the area. In order to keep this an important element of the area the promotion of the Arsenal will need to be a priority. Its viability is very important to the County and the entire area.

\*Revise state legislation so Rock Island County can charge user fees for appropriate services. Many fees that are collected, especially by the courts are under the mandate of the State and many times the costs of these services do not meet the fees collected to provide these services.

\*Continue to partner with other jurisdictions and agencies to address poverty.

\*Support the development of an Illinois DOT facility in Rock Island County.

\*Expand development near the West Rock River Bridge to create jobs and to expand the tax base for Rock Island County.

\*Expand on the County's digital infrastructure.

\*Support new Easterly Bridge across the Mississippi River.

\*Expand facilities for Western Illinois University.

\*Bring continuity to employee hiring practices in various departments.

\*Continue to support reconstruction of the I-74 Bridge Corridor.

\*Develop a "green" program for County Offices and communicate these efforts to the public.

\*Encourage economic development without too much tax reduction or TIF.

\*Increase awareness of the County as an employer to students.

\*Create a technology corridor in Rock Island County.

\*Continue public relations program for the general public and educate County Board Members and County Department Members on activities within each department. The DVD that was recently developed is a good example of public outreach.

\*Develop a new regional education office, potentially as part of the Administrative Center.

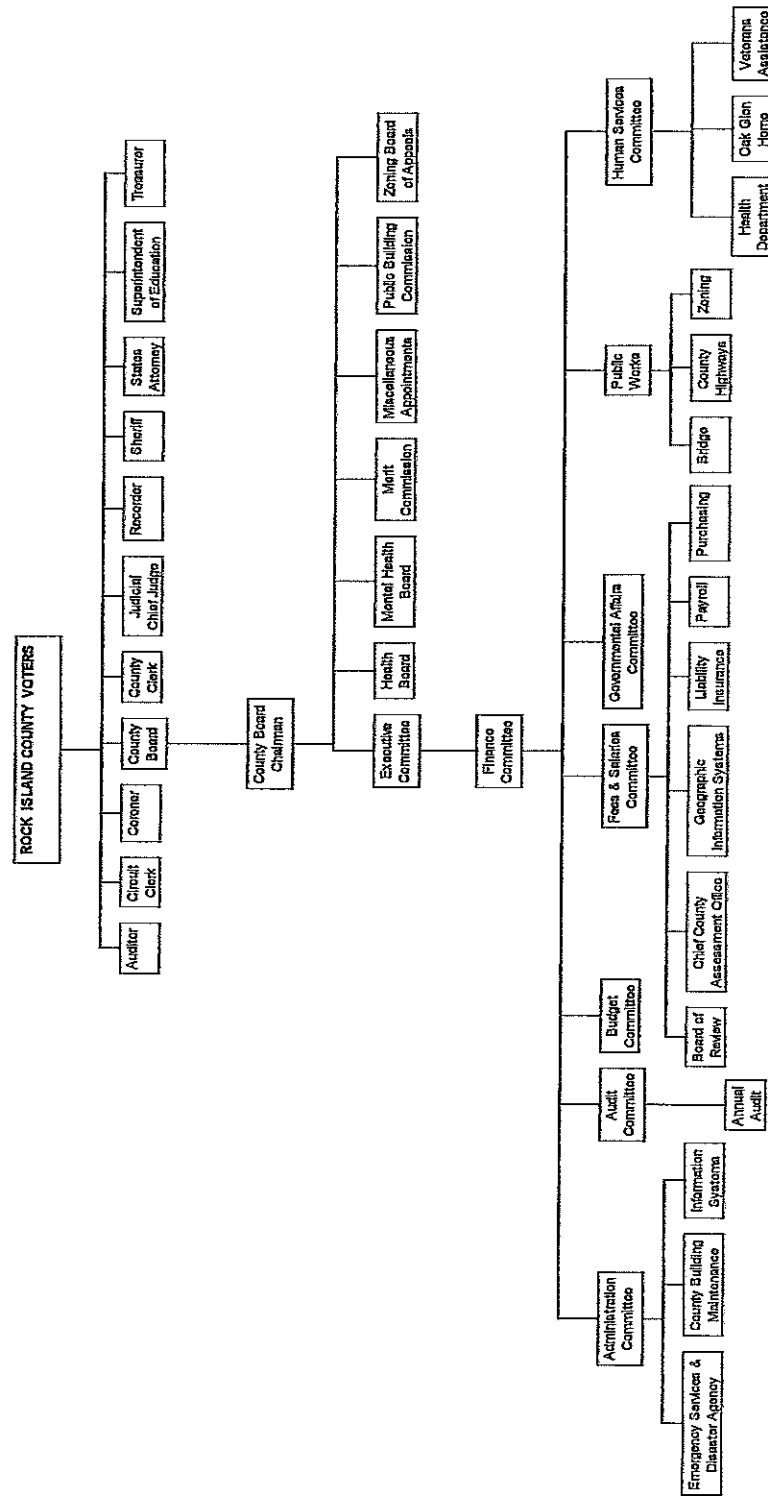

Among the discussion was the following list of strengths the attendees felt that Rock Island County possessed:

- Affordable housing
- Economic development in the area

- Technology in the County has improved
- Community is family oriented
- Employees of the County are willing to cooperate and communicate
- Relationship with the Bi-State Planning Commission
- Cost of living
- Commuting time is short
- Departments of the County help each other
- County employees personify Midwest values
- Rock Island Arsenal
- County has done well financially, making wise decisions, and departments within the County have helped
- Good leadership in the County
- Open to new ideas, willing to listen, willing to vision
- Improved cooperation with other communities as shown with the nursing home and animal shelter
- Diversity of population
- Flexibility of workforce
- Natural areas, rivers, zoo and animal life
- Sports diversity
- Geographic location relative to US, Quad Cities is a transportation hub
- Education, local colleges can be pursued
- County is a great employer providing a living wage, insurance and other benefits
- Accessibility by air, ground, rail and water transportation
- Outdoor recreation facilities
- Level of service offered such as social services
- Police and fire protection
- Fringe Benefits
- Friendliness of the community
- Residents care for elderly
- Strong and positive organized labor works as a community partner

All the issues listed above are considered important priorities of Rock Island County's leadership. However, it is with the action of the County and involvement of other entities and citizens that will make many of these goals a reality.

# ROCK ISLAND COUNTY - ORGANIZATIONAL CHART

## ABOUT ROCK ISLAND COUNTY

Rock Island County was incorporated in March 1831 with its Charter adopted in July 1833. It is located in the western part of Illinois and currently occupies a land area of 452 square miles and serves a population of 147,216 residents. Major cities within Rock Island County include the City of Rock Island, the City of Moline, the City of East Moline, the City of Silvis, the Village of Milan and 10 other smaller communities with populations less than 5,000 residents.

Rock Island County operates as a township form of government. Policy-making and legislative authority are vested in a County Board consisting of a County Board Chairman and twenty-four other members. The governing board is responsible for, among other things, passing resolutions, adopting the budget, and passing policies and procedures. The Chairman or specific committees of the County Board appoint board members to the Bi-State Regional Commission, the Rock Island County Emergency Telephone System Board, the Rock Island County Merit Commission, the Illini Hospital District and various fire protection, conservancy and sanitary districts within the County. Because these appointments do not include a majority of the County Board these organizations are not part of the financial statements of the County. Each County Board member is elected in 4 year staggered terms with one member elected per district, by district.

Rock Island County provides a full range of services to its residents. These services include law enforcement; education; construction and maintenance of roads and bridges; nursing home services; physical health and mental health related services; animal control services; emergency and disaster services; legal services; zoning, general administration; recreational activities.

## Financial Policies

March, 2010

# FINANCIAL POLICIES

## Purpose

Rock Island County government operates on policies designed to protect the assets of the County, provide guidance to employees, and serve the public efficiently.

It is the intent of Rock Island County that these policies be used to avoid conflicting goals or activities that may have a negative impact on the overall financial position of the County. The County also has in place a system of internal accounting controls that is designed to provide reasonable assurance that the financial records are reliable for preparing financial statements and maintaining accountability for assets and obligations. Over the years, the Rock Island County Board has adopted policies, which are summarized below. Some of these policies have been established by Illinois statute.

These financial policies apply to revenues, cash management, operating budget, capital improvement, debt management, risk management and accounting.

## Objectives

- To be accountable to the citizens of Rock Island County.
- To protect the policy-making ability of the County Board by ensuring that important policy decisions are not controlled by financial problems or emergencies.
- To enhance the policy-making ability of the County Board by providing accurate information on program costs.
- To ensure sound management of the County government by providing accurate and timely information on the County's financial condition.
- To provide sound financial principles to guide management which have a significant fiscal impact
- To establish operational principles that minimize the cost of government and financial risk.
- To establish revenue principles that will maintain a diversified and stable system to shelter the County from short-run fluctuations in any one revenue source, distribute the cost of services fairly, and provide the adequate funds to operate desired programs
- To provide the essential public facilities and prevent deterioration of the capital infrastructure of the County.
- To protect and enhance the credit rating of the county.
- To ensure the legal and appropriate use of County funds through a system of internal control.

## **Amending the Budget**

After the adoption of the annual budget, the budget may be amended through a budget amendment or budget transfer. Authority for amending the budget is found at 55 ILCS 5/6-2003 and ILCS 5/6-1005 of the Counties Code.

- Budget Amendments: Amendments to the budget require a 2/3<sup>rd</sup> majority vote of the County Board.
- Budget Transfers between Salaries & Wages, Supplies, Other Services and Charges and Capital Outlays require a 2/3<sup>rd</sup> majority vote of the County Board.

## **Appropriation**

All County funds are appropriated in the “Official Budget”. Appropriations will be considered the maximum authorization to incur obligations and not a mandate to spend.

(55 ILCS 5/6-1005) (From Ch 34, par. 6-105)

Sec. 6-1005. Contract or obligation in excess of appropriation Except as herein provided, neither the county board nor any one on its behalf shall have power, either directly or indirectly, to make any contract or do any act which adds to the county expenditures or liabilities in any year anything above the amount provided for in the annual budget for that fiscal year. Provided, however, that the County Board may lease from any Public Building Commission Act, approved July 5, 1955, as heretofore or hereafter amended, any real or personal property for county purpose for any period of time not exceeding twenty years, and such lease may be made and the obligation and expense there under incurred without making a previous appropriation therefore, except as otherwise provided in Section 5-1108. Nothing contained herein shall be construed to deprive the board of the power to provide for and cause to law independently of any action of such board. Except, as herein expense shall be incurred by or on behalf of a county unless an appropriation therefore has been previously made.

## **Balanced Budget**

Our budget is an itemized budget for each fund and each program within the fund. Our definition of a balanced budget is when current revenues equal to or greater than the current expenditures. Examples of strategies to be used include: improving productivity; identification of the responsible party(ies) to move the service or payment burden away from the county; improving revenues; creation of new service fees or raise existing fees based on the cost of services; reduction or elimination of programs; use of fund balances, if available; reduction or elimination of services; and lastly increasing property taxes,. In any fund in which expenditures shall exceed revenues, operating reserves may be used to meet the shortfalls.

## **One-Time Revenues**

To the extent feasible, one-time revenues will be applied toward one-time expenditures; not to finance ongoing programs. Ongoing revenues should be equal to or exceed ongoing expenditures.

## **Encumbrance**

An encumbrance system is maintained to account for commitments resulting from purchase orders and contracts. Every effort will be made to ensure that these commitments will not extend from one fiscal year to the next. Any emergency encumbrances that do extend into the next fiscal year will be subject to appropriation in the next years' budget. Encumbrances at year end do not constitute expenditures or liabilities in the financial statements for budgeting purposes.

## **Revenue**

1. The County will try to maintain a diversified and stable revenue system to shelter it from short-run fluctuations in any one revenue source.
2. Revenues are projected using conservative estimates based on historical information and current levels of collection.
3. Illinois statutes limit the amount of total property tax that can be levied by the County Board. In complying with these requirements, the levy for each fund may be based upon an evaluation of its fiscal health; non-property tax revenues and opportunities for future non-levy revenue growth; the level of planned expenditures; and cash requirements.
4. The County charges user fees for items and services which benefit a specific user more than the general public. User fees are determined by the statutes or an indirect cost study. Fee studies based on the cost study are done as needed to determine the levels of fees needed to equal the total cost of providing the services. Where feasible, all fees for licenses, permits, fines and other miscellaneous charges may be set to recover the County's expense in providing the attendant service. These fees may be reviewed as needed and recommended changes presented to the appropriate County Board Standing committee and the Finance Committee.

## **Investment Policy**

This Investment Policy applies to the investment activities of all funds under the jurisdiction of the Rock Island County Treasurer as well as any new or temporary funds placed under the jurisdiction of the Rock Island County Treasurer. The Illinois Compiled Statutes (30 ILCS 235/1 et al., Public Funds Investment Act) will take precedence except where this policy is more restrictive.

It is the purpose of this policy is to establish cash management and investment guidelines for the stewardship of public funds under the jurisdiction of the Rock Island County Treasurer.

## **Objectives**

- Safety of principal.
- Diversity of investments to avoid unreasonable risks.
- The portfolio shall remain sufficiently liquid to meet all operating costs which may be reasonably anticipated.
- The highest interest rate available will always be the objective of this policy combined with safety of principal, which is left to the discretion of the Rock Island County Treasurer. This includes whether or not to require the collateralization of any deposits.
- In maintaining its investment portfolio, the Rock Island County Treasurer will avoid any transaction that might impair public confidence in the Rock Island County Treasurers office.
- The Rock Island County Treasurer will give consideration to the financial institutions positive community involvement when determining which financial institution to be used as a depository.
- All funds will be invested for a period of one day or longer, depending on the requirement for the disbursement of funds.
- All funds shall be deposited within two (2) working days at prevailing rates or better in accordance with Illinois Compiled Statues.

## **Responsibility**

The Rock Island County Treasurer has the direct responsibility of all investment of funds under the control of the him/her. The Rock Island County Treasurer will be responsible for all transactions and will establish a system of controls of the activities of all subordinates who are directly involved in the assistance of such investment activities.

## **Prudence**

The standard of prudence to be used by investment officials shall be the “prudent investor,” and will be applied in the context of managing an overall portfolio. Investment officers acting in accordance with written procedures and exercising due diligence may be relieved of personal responsibility for any individual securities credit risk or market price changes, provided that deviations from expectation are reported in a timely fashion, and appropriate action is taken to control adverse developments.

## **Accounting**

All investment transactions shall be recorded by the Rock Island County Treasurer's staff. A report will be generated, at least monthly, listing all active investments. Information regarding securities in portfolio by class or type, book value interest earned and market value as of report date will be included. This report will be made to the Rock Island County Board and Rock Island County Treasurer. (55 ILCS 5/3-10010)

## **Financial Institutions**

As per 55 ILCS 5/3-10009, the Rock Island County Treasurer will recommend to the County Board which banks or savings and loan associations moneys in the custody of the treasurer may be kept. The Rock Island County Treasurer will take into consideration security, size, location, condition, service, fees and the community relations involvement of the financial institution will be presented to the County Board of adoption..

At no time will investments of Rock Island County exceed 65% of the financial institutions Capital and surplus. All financial institutions having any type of financial relationships; deposits, investments, loan, etc. are required to provide a complete and current "call report" required by their appropriate regulatory authority each calendar quarter within 30 days of the "call" request date. (30 ILCS 235/6)

## **Investment Vehicles**

The Rock Island County Treasurer will use investments approved for governmental units as set forth in the most current issue of the Illinois Compiled Statutes. The Public Funds Investments Act, 30 ILCS 235/1 et seq., specifies that investments in which County governments are authorized to deposit public funds.

## **Collateral**

It will be the discretion of the Rock Island County Treasurer to determine whether or not collateral will be required of financial institutions receiving funds from Rock Island County. At all times, the Treasurer will require that deposits in excess of 35% of the capital and surplus of a financial institution will be collateralized. The Treasurer may request collateral for any part of deposits in financial institutions he/she determines it to be in the best interest in safeguarding the funds on deposit. (30 ILCS 235/6)

When collateral is required, 110% of the deposit will be required. Only the following collateral will be accepted:

- U.S. government direct securities
- Obligations of Federal Agencies
- Obligations of the State of Illinois
- Obligations of the County of Rock Island

- Obligations of municipalities located within the County of Rock Island, subject to acceptance by the Rock Island County Treasurer
- Acceptance Collateral as identified in the Illinois Compiled Statutes for use by the Treasurer of the State of Illinois.

Investments shall be made with judgment and care, under circumstances then prevailing, which investors of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the possible income to be derived. The prudent investor standard is one where investments will be made with the judgment and care that a prudent investor would consider in investing and managing assets and funds considering the purpose, terms, distribution requirements, and other circumstances of the assets. This standard requires the exercise of reasonable care, skill, and caution and is to be applied to investments not in isolation, but in the context of the asset portfolio as a whole and as a part of an overall investment strategy that should incorporate risk and return objectives reasonable suitable to the assets.

The above standard is established as the standard for professional responsibility and will be applied in the context of managing the Rock Island County Treasurer's portfolio. Pursuant to the Public Funds Investment Act at ILCS 30/235/1 et seq and all other Illinois statutes and constitutional provisions regarding conflicts of interest and ethical considerations.

## **Security Controls**

Only the Rock Island County Treasurer should be authorized to establish financial accounts for the Rock Island County. At all times either the Rock Island County Treasurer, singly or signatories as designated by the Rock Island County Treasurer, should be authorized to sign on financial accounts of the office of the Rock Island County Treasurer. Authority for this is found in the Treasurer's Statute 55 ILCS 5/3-10001 et seq., and in Public Funds Investment Act 30 ILCS 20/ 1 et seq.

## **Grants**

The County shall aggressively pursue all grant opportunities; however, before accepting grants, the County will consider the current and future implications of both accepting and rejecting the monies. The County Board Chairman will review all grant applications, and promptly inform the appropriate standing committee of the grant application with his recommendation. In recommending acceptance or rejection of a grant, the County Board Chairman will evaluate each grant upon consideration of the following:

- The amount of matching funds required
- In-kind services that are to be provided
- The length of the grant
- The requirement to continue the service after the grant has ended
- The related operating expenditures

## **Debt**

- The County will confine long-term borrowing to capital improvements or projects that cannot be financed from current revenues.
- Debt financing shall generally be utilized for projects that benefit the citizens of Rock Island County, have a useful life that will exceed the term of the financing, and when specific project revenues or resources will be sufficient to service the debt.
- The County will not use long-term debt for current operations.

**Property Tax Revenues** increased by \$288,237. The tax rate of .75 cents will remain the same as the previous year, but due to a 1.9% estimated increase in the assessed valuation it is expected to increase collections by \$288,237.

**Penalty and Interest (Property Taxes)** increased by \$326,937. In FY2010 penalty and interest on delinquent property tax payments are expected to increase by \$125,750. This is due to an increase in late payments being made on property taxes and a higher than expected amounts actually collected in the previous year. Also, the addition of other taxes to this category were included in the FY Budget for taxes collected for Quad Cities Downs Racing Surcharge and the Line Easement Tax for a total of \$172,000. Another addition made under taxes was amounts received for Federal-in Lieu of Taxes at \$14,500.

**Fees and Charges** increased by \$2,088,387. In the General Fund estimated increases in revenue from fees are expected in the Circuit Clerk's Office of \$100,000, the County Clerk's Office of \$50,000 (due to the new fee study going into effect January 2010), Sheriff Fees of \$225,000 (due to the new fee study going into effect January 2010), Electronic Monitoring Fees of \$30,000 (due to the increased usage of electronic monitoring). Hope Creek Care Center is expecting an increase in Patient Fees of \$1.6 million. This due to the opening of the new facility with a bed capacity of 245 bed and projections of full capacity. Animal Control Shelter is expecting increased fee revenues of \$109,436 due to increased services for clinical and surgical procedures and animal containment fees.

**Intergovernmental Revenues** are expected to decrease by \$216,917. This is mainly due to lost revenue from the State on Salary Reimbursement and lost revenue from shared revenues from Replacement Revenue.

**Interest Revenue** will take a dramatic decrease of \$409,395. This is will decrease due to the a decline in available funds to invest and lower interest rates.

**Miscellaneous Revenue** will decrease by \$194,127. This is due to the rental income at the old nursing home site has been eliminated. The revenues for the nursing home memorial fund, grandparents and activities fund were lowered from the previous years projects.

**Other Financing Sources** decreased by \$2,120,044. This due to the decrease in the amount received for Medicaid reimbursements that were received at the County level and the States portion was then sent to the State for their portion. This years portion only reflects the County's portion of \$2,800,000, rather than the \$4,363,125 in 2009.

**Unencumbered cash** decreased by \$4,423,041 due to the availability of bond money available in 2009 for the construction of the new nursing home. The facility was completed in April 2009,

Total Expenditures	\$ 71,988,266	\$ 69,618,292	\$ 77,422,480

The change in expenditures is mainly in the social services function due to opening of the new nursing home facility. The addition of a 245 bed facility has increased not only the amount of employees but the costs of operating the facility for such things as therapy, culinary and patient care among the major costs. The new facility was opened in April of 2009 as the chart indicates increased expenditures for 2009. The other categories increased mainly due to salary increases. In 2009 salary increases were not budgeted due to the County entering into negotiations under all union contracts. The budget for FY2010 reflects step increases and a 3% increase where the County in good faith bargaining did give increases even though the contract has not been settled as the writing of this document.

FY2010 expenditures represent an \$2.3 million increase over FY2009.

**Salaries and Wages** The significant expenditure increases are in salaries and wages of \$2,836,479. In the 2009 no increases were budgeted due to the fact that it was a contract year for all of the bargaining units. As of the FY2010 a contract settlement had not been reached. However, the County inc a good faith effort did increase wages and salaries by 3%. The step increases were also included in the 2010 fiscal year budget.

**Personal Benefits** expenditures represent an \$1.8 million increase over FY2009. This is mainly due to the impact of the higher wages and their impact on IMRF and FICA. Hope Creek Care saw the largest increase due to added employees since the last fiscal year budget. This amounted to an \$1.4 million increase.

**Supplies** The budget for supplies has seen a decrease of \$284,666 over the previous year. Many of the Departments had made drastic cuts to their budgets and the committee also needed to cut another 2.5% in the final stages of the budget process in order to balance the budget.

**Other Services and Charges** experienced an increase of \$1.2 million. This was mainly due to added expenses at Hope Creek due to increases in residents being cared for at the new facility. The population increased from an average of 150 residents to 245 at the new facility.

**Debt Service** Under Debt Service this was added this year for the debt payment for Hope Creek Care Centers bond payment of \$1,008,455. In 2009 a Debt Service Fund was established. However, the debt for the bond payment is being paid out of the Hope Creek budget and not the Debt Service Fund. The debt for the Jail Lease is under transfers to other agencies due to the arrangement of the debt being paid to the Public Building Commission. The money to pay this debt is levied by the County and transferred to the Public Building Commission.

Re: 2009-2010 Budget

Attached you will find the Fiscal year 2009-2010 Budget Document.

All General Fund appropriations were reduced following the budget hearings by 2.5%. Although reductions were made in each and every category, it is the total reduction that was the objective. You should immediately develop a plan to meet the total reduction that was made following the budget hearings.

On behalf of the entire Budget Committee, please accept our appreciation for your continued fiscal responsibility and awareness. This next fiscal year is sure to be challenging as we face reductions in state reimbursements, reductions in economic based revenues and increased expenses. Continued reductions in revenues as we have seen these past several months will mean tough decisions in the spring.

Again, thank you for your cooperation and efforts to reduce expenses and increase revenue.

## OFFICE OF THE COUNTY BOARD

Rock Island County, Illinois  
1504 Third Avenue, Rock Island, IL 61201  
Phone: (309) 558-3605 \* Fax: (309) 786-4473

The General Fund is Rock Island County's chief operating fund. It is the primary funding source for public safety and criminal justice, community and human services, general government functions such as real estate recording, tax collections, and property tax assessment and agency support functions. Approximately 47% of County staff is General Fund.

The fund is made up of general, undesignated revenue streams such as sales tax, income tax, the General Fund portion of the property tax levy and certain fees, fines, charges and reimbursements. These revenues do not have specific purposes attached to their use.

Note: Since this is the first year of submission to the Government Finance Officers Association some departments do not include performance indicators because the information was not available. They will be subject to inclusion going forward in the next fiscal years.

**Property Tax**

Property tax is a tax that is based on a property's assessed valuation. It is an "ad valorem" tax, meaning "according to value". In Illinois, only real property-land and any permanent improvements - is taxed. The estimated levy for 2010 is .25 cents per \$100 assessed value.

**Penalty and Interest**

Penalties and interest are assessed on all property taxes paid after the due date. This classification also includes some other taxes collected by the County.

**Fees for Services**

This revenue reported in this classification is generated by several offices under the General Fund; Clerk of the Circuit Court, County Clerk, County Sheriff, County Jail, Zoning, Coroner, Recorder of Deeds, Treasurer, States Attorney and Public Defender. The fees collected by these departments are set by statute and ordinances, and are based on services provided.

**Intergovernmental Revenues**

Intergovernmental revenues are amounts remitted to the County by other units of government in the form of grants, entitlements and/or shared revenues. Major revenues under this category include:

Income Tax is a tax which the county receives on a prorated portion of the total income tax collected, calculated as a percentage, based on the ratio of Rock Island County population in unincorporated areas, to the total State of Illinois population. The population figures are determined by the United States Bureau of the Census and certified by the Office of the Secretary of State.

Replacement Revenue is a State Shared Revenue where an additional income tax of 2.5% imposed on corporations and 1.5% on partnerships, trusts and corporations with fall under section 1372 of the Internal Revenue Code. The percentages apply to net income. Rock Island County receives from the State less administrative expenses of the State, an amount of the total in the fund proportional to the amount of personal property tax that is used to receive before the abolishment of the personal property tax.

Salary Reimbursements are reimbursements received by the State of Illinois for subsidizing the salaries of the States Attorney, Assistant States Attorney, Assessor, Probation Officers and the Public Defender. These are all bases on different percentages.

Sales Tax - The base sales tax rate in Rock Island County is 6.25% (6.25 cents per \$1.00). Sales tax is imposed and collected by the state on a seller's receipts from sales of tangible personal property for use or consumption.

Tax allocation breakdown of the 6.25 percent sales tax rate on General Merchandise and titled or registered items:

5 percent: state portion (equivalent to 80% of tax collections)

1 percent: local portion (equivalent to 16% of tax collections) County Tax (CT) applies only to unincorporated County areas.

0.25 percent: county portion (equivalent to 4% of tax collections) Countywide Sales Tax (CST)

All sales tax is collected and remitted to the State; it is from these funds that the State distributes such portion allocable to the County for its use. Those portions remitted to the County are comprised of the CT and the CST. The CT tax is 1 cent on general merchandise and on qualifying food, drugs and medical appliances. The CST tax is .25 cents on general merchandise of taxable sales made at businesses located within the County, both incorporated and unincorporated areas.

### **Interest Earnings**

Interest Earnings are monies earned on investments held in local banks.

### **Miscellaneous**

This classification includes miscellaneous amounts not classified elsewhere.

### **Other Financing Sources**

Other financing sources are do to transfers in from other funds. Due to the cost allocation study the County is allowed to charge other funds within the County for services provided by departments within the General Fund. It also includes transfers from other agencies.

## Discussion of General Fund Revenues

◇ The FY2010 property tax levy rate remains the same as the previous year at .25 cents per \$100 of assessed valuation. This is set at the maximum rate.

◇ Penalty and Interest increased due to the increases seen over the last two tax cycles. To this classification the taxes received from Line Easement and the Quad Cities Downs has been added.

◇ Fees for Services increased over 2009 FY budget due to an increase in some Sheriff fees and County Clerk fees. This was recommended after a cost study was initiated to determine if the County was collecting sufficient fees to cover the cost of services provided in these departments.

◇ Intergovernmental Revenues are estimated to increase, even though lower amounts are expected in Replacement Revenue and Salary Reimbursements from the State of Illinois. The Replacement Revenue from the State appears to be a lagging economic indicator and the Salary Reimbursements is due to the fiscal crisis that the State is facing. Also, due to the reorganization of the 911 Boards Records Management System the County will not receive the reimbursements from the various entities in the agreement any longer, but it will go directly to the 911 Board.

◇ Interest Earnings are down 59.94% due to loans to other funds from the General Fund meaning less funds to be invested and due to lower interest rates.

◇ Other Financing Sources are expected to increase by 23.2% over the previous year due to the transfers from Hope Creek Care Center for the Management Performance Associates ( MPA ) agreement for their assistance at the nursing home. The General Fund will pay the contract and receive a reimbursement from Hope Creek Care Center. Also, among these are transfers from the Public Building Commission.

## General Corporate Fund Budget Summary for Fiscal Year 2010 Budget

The General Corporate Fund Budget is presented as a balanced budget with \$26,014,575 in projected revenues and \$25,891,329 in appropriated expenditures.

### Revenues

The majority of the County-wide operations, including the budgets of elected officials, are included in the General Corporate Fund. The FY2010 revenue projections for the General Fund are as follows:

Property Taxes	\$ 5,700,000	22%
Penalty & Interest and Other Taxes	\$ 926,150	4%
Fees for Service	\$ 7,083,431	27%
Inter-Govt. Revenue	\$10,400,529	40%
Interest Earnings	\$ 141,875	1%
Miscellaneous	\$ 138,690	1%
Other Financing Sources	\$ 1,623,900	6%
Total	<u>\$26,014,575</u>	

### **Property Taxes**

The maximum levy for the General Corporate Fund is .25 cents per \$100 of assessed valuation. Using the projected valuation of \$2,287,646,774 the County would generate a 2009 levy of \$5,700,000 in property taxes for the General Corporate Fund for the fiscal year 2010. In 2008 the levy was set at \$5,594,000, which is a difference of \$106,000 (1.89%) in additional property tax revenue.

### **Penalty & Interest & Other Taxes**

Penalty & Interest is the amount collected on delinquent real estate taxes. In 2010 it is expected that the County will collect an estimated \$725,000. In 2009 it was estimated to be \$616,000. In 2008 it collected a total of \$718,640. With the economic outlook it was decided that in 2010 we would probably collect at least the amount received in 2008 if not more. Also included in these are the taxes collected for the Quad Cities Downs Racing surcharge. This tax allows the County to collect 1.5% of each winning wager. It is estimated to bring in \$30,000. The Line Easement Tax is from the cable companies which are charged a tax for the privilege to use all public streets, right of ways and for public service facilities. This tax is estimated to generate \$142,000, which is approximately \$80,000 more than the previous year.

### **Fees for Services**

Fees and fines are currently projected to increase 2.3% in FY2010 over FY2009, and are conservatively estimated to increase slightly in 2010. The increase in this revenue can be attributed to the current cost study for the Sheriff's fees and the County Clerks fees. It is estimated additional revenue will be collected in 2010 of \$100,000 and \$50,000, respectively. All other revenues are expected to remain rather flat in the fiscal year 2010.

### **Inter-Governmental Revenues**

Inter-Governmental Revenues include all monies received by the County from the Federal, State and Local Levels. Inter-Governmental Revenues generate 40% of the County's total revenues. In 2010 it is expected to see a decline in these revenues from \$10,721,154 in FY2009 to \$10,400,529 (\$320,625). One of the main revenues hit by the poor economic conditions is Replacement Revenue which is an income tax imposed on corporations of 2.5% and partnerships and trusts of 1.5%. This is estimated to decrease by \$500,000.

State Incomes Taxes and Sales Taxes will remain at about the same levels as the previous year however, increases have been projected in the amount of \$148,000 for the Auto Leasing Tax imposed on car rentals. It was discovered in 2009 that the County was not receiving its share in some of the unincorporated areas of the County and it was being sent to another entity. Also, an increase in the amount expected from Inheritance tax has been increased from \$50,000 to \$150,000 due to past history showing we have received no less than that amount over a period of 4 years. Salary reimbursements from the State for Probation Officers is expected to decrease by \$94,000, with the remaining salary reimbursements for the State's Attorney's Office and the Chief County Assessor remaining the same as the previous year.

6

### **Interest Income**

Interest Income has seen a large decrease over the past several years. In 2009 it was expected that the County would receive approximately \$354,000 in interest income. However, due to the drop in interest rates and the County having less money in the General Fund invested it is expected that the County will receive approximately \$130,000. This is reflected in the amount set for the 2010 fiscal year at \$141,875.

### **Miscellaneous**

Miscellaneous revenues have increased from \$113,900 in 2009FY to projected revenue of \$138,690 due to increases in rental income from outside entities renting space in the County buildings.

### **Other Financing Sources**

Other financing sources are due to transfers from other funds. Due to the cost allocation study the County is allowed to charges other funds within the County for services provided by departments within the General Fund. In 2009 Fiscal Year the County's General Fund budgeted \$1,318,091 in reimbursements from other funds. In 2010 Fiscal Year it was determined the General Fund would receive \$1,623,900 a difference of \$305,809 in additional revenue. However, \$250,000 is being reimbursed from Hope Creek for the new consulting firm which is being paid from the general fund.

## FY 2010 GENERAL CORPORATE FUND BUDGET SUMMARY

The General Corporate Fund expenditure budget for FY2010 was prepared in accordance with State Statutes. The FY2010 budget of \$25,891,778 represents a total increase of \$139,752 (.5%) increase over the original FY2009 budget of \$25,752,026.

### **Salaries and Wages**

Salaries and Wages increased a total of \$521,871 (3%). This was for all bargaining unit employees and non bargaining unit employees. Salaries and Wages make up 62% of the General Fund budget as compared to 60% in the previous year.

### **Personal Benefits**

Personal Benefits decreased by a total of \$349,482. This is due to an expected decrease in Health Care Costs with the change in providers. Starting January 1, 2010 the County will begin receiving its Health Care Plan through United Health Care of River Valley due to better discounts provided by this administrator.

### **Supplies**

Supplies (Commodities) decreased by a total of \$9,833. This was due to cost shifts that were allowable under some of the various Documents Funds within certain departments.

### **Other Services and Charges**

Other Services and Charges increased by \$121,276. This is mainly due to the General County departments expense for the services of the management group for Hope Creek for which the General Fund will be reimbursed.

### **Capital Outlays**

Capital Outlays have decreased by \$80,873. Due to efforts to balance the budget the County has decided to decrease spending on equipment for this fiscal year. However, it continues to meet its decision to keep the Sheriff's vehicles on a scheduled turnaround in purchasing new vehicles. This decision is found to be more cost effective in the long term.

### **Transfers to Other Funds**

Transfers to Other Funds are operating transfers where the General Fund supplements the costs of certain funds due to lack of revenue being received in those funds. For the FY2010 the total transfers are expected to be 1,758,825. This is a decrease of \$53,207. This is due to no transfer being budgeted for the Child Support Fund. The largest transfer is for Child Placement which was budgeted at \$731,250 for FY2010. Total transfers of \$473,430 is for the Records Document Fund and GIS and this is revenue received in the General Fund and then transfers to these various funds. Animal Control is budgeted to receive \$115,236 on an as needed basis.

The Budget Committee set out several goals at the beginning of its process which where as follows:

- Balance the Budget
- Minimize any levy increases
- Minimize adverse employee impacts
- Drastic reduction of equipment expenses and strive for a more efficient fleet
- Facilitate the repayment of loans from the General Fund

The Budget Committee has reached these goals. However, when the final meeting with departments were completed the committee had to make the decision to reduce spending for all departments in the General Fund by 2.5%. It will however keep a diligent review of expenditures and revenues and make the necessary adjustments as needed.

## County Auditor

### ANALYSIS

#### OPERATIONS ANALYSIS-

The County Auditor is the general accountant of the county and maintains a continuous internal audit of all county departments and financial systems. The Auditor's Office produces the Comprehensive Annual Financial Report for the County, the most recent edition of which was awarded the Certificate of Excellence in Financial Reporting by the Government Finance Officers Association. The Auditor's Office audits and recommends payment of all county bills; approves all purchase orders; maintains a record of all major County assets; preserves and improves internal controls; and provides accurate financial information to the public, the County Board, and all department heads within the County.

#### REVENUE ANALYSIS-

The Auditor's Office produces revenue for the general corporate fund by billing other county funds for accounting services which is done through inter-fund transfers to the general fund yearly using the cost study report. The office is not allowed by statute to generate revenue by other means.

#### EXPENDITURE ANALYSIS-

The largest expenditure for the office is salaries and wages, consisting of 97% of the total budget. The Auditor is required by statute to receive 20 hours of Continuing Professional Education every year, which is the next largest expenditure in the auditor's budget consisting of training and education and travel expenses. Other expenses (communication, office supplies, dues, etc.) are required to function as an office. Outside Contractual Services consist of a maintenance agreement with RK Dixon for a Lanier copier, fax and scanner for \$788. There are no plans for any capital expenditures in the 2010 fiscal year.

## County Board

### ANALYSIS

#### OPERATIONS ANALYSIS-

The County Board Department budget includes appropriation for the salary of the County Board Chair, Executive Assistant and the County Board Members salaries, per diem and mileage reimbursement payments. This makes up 89% of the total budget and the remainder of the expenditures being part of the routine costs of functioning as an office.

#### REVENUE ANALYSIS-

The primary revenues have changed this year and include liquor license permits and fees, coin machine licenses, cable television franchise fees, fireworks permits, Q.C. Downs racing surcharge and rents. These have been included as general fund revenues in the past but have been departmentalized this year. The County Board also is part of the cost allocation study reimbursements from other funds for services provided.

#### EXPENDITURE ANALYSIS-

Salaries and Wages consist of 90% of the total expenditures. Personal Benefits included training and education in previous years but is not included under other services and charges, so this amount was reduced to zero. Outside Contractual services include \$1,073 for a copier and transcriber. There are no plans for capital expenditures in the 2010 fiscal year. The total budget for 2009 was \$371,251 in comparison to \$371,313 for 2010, a total increase of \$62.

### ANALYSIS

#### OPERATIONS ANALYSIS-

#### REVENUE ANALYSIS-

Projected revenues are expected to increase by \$20,208 over the previous years projection due to efforts on collecting fines that have not been collected from previous years.

#### EXPENDITURE ANALYSIS-

The total budget for the 2010 fiscal year decreased by \$12,496 mainly due to costs for supplies for the 2010 will be used from the Document Storage Fund to help relieve costs incurred under the general fund. The Salaries and Wages line item, which makes up 97% of the total budget, increased by \$65,054 due to wage increases from 2009 and 2010. There where no transfers budgeted to be transferred to help support the Maintenance Fund for Child Support in the 2010 fiscal year which amounted to a savings of \$50,000. ## Circuit Court Administration

### ANALYSIS

#### OPERATIONS ANALYSIS-

Between the Presiding Judge, Court Administrator and Jury Coordinator it is determined how many jurors are needed for a given day and then make sure that the jurors are notified through an outgoing telephone voice message, whether they are required to appear for service. The juror will appear for service and is given an orientation upon check-in by the Jury Coordinator.

#### REVENUE ANALYSIS-

The Court Administration department is funded entirely through the General Corporate Fund. However, the department does receive reimbursements from the State of Illinois for proceedings pursuant to the Sexually Violent Persons Act. However, due to a lack of State funding, it is highly unlikely that any additional funding will be received this coming fiscal year.

#### EXPENDITURE ANALYSIS-

The significant amount in the Court Administration budget is the expenditures for interpreters, jury fees and court-appointed attorneys. In 2009 it is expected to expend close to \$354,870 for these services alone and for the 2010 fiscal year \$339,009. This is dependent on how many trials are conducted throughout the year. Outside Contractual Services includes \$4,875 for a maintenance agreement for a copier. There are no plans for capital expenditures for the 2010 fiscal year.

## County Clerk Administrative

### ANALYSIS

#### OPERATIONS ANALYSIS-

##### REVENUE ANALYSIS-

The difference between the revenue projects for 2009 and what is projected for 2010 is due to a fee study conducted by an outside firm to determine the proper amounts of fees should be charged for the various services provided in the County Clerk's Office. The County Clerk is expected to collect an additional \$50,000 in fees for the 2010 fiscal year due to the cost study findings and change in fees.

##### EXPENDITURE ANALYSIS-

The total increase in the administrative portion of the County Clerk's budget is \$28,203. This is mainly due to Salaries and Wages with an increase of \$30,970. Supplies decrease by \$5,398. Other Services and Charges increase by \$3,031 mainly due to the increased costs of postage. There are no expenditures under Outside Contractual Services or Capital Expenditures for the 2010 fiscal year.

## County Clerk Elections

### ANALYSIS

#### OPERATIONS ANALYSIS-

#### REVENUE ANALYSIS-

The County Clerk receives reimbursements from the State of Illinois for the cost of conducting elections. It is expected to increase over the previous year due to increased State funding.

#### EXPENDITURE ANALYSIS-

Due to the nature of the election cycle there are substantial fluctuations in spending from one year to the next. Total expenditures increased \$23,223 mainly due to an increase in operating supplies in the amount of \$18,500 and costs of election judges and election rentals in the amount of \$15,500. Repairs and Maintenance was reduced by \$10,000 and will be appropriated on as need basis.

## County Coroner

### ANALYSIS

#### REVENUE ANALYSIS-

There are limited revenues available for the Coroner's Office . Revenues generated from fees has remained fairly constant over the years, averaging approximately \$6,000/year.

#### EXPENDITURE ANALYSIS-

Employee wages and professional services comprise the majority of the yearly expenses of the coroner's office. The coroner's office has contracted with outside individuals who are on call to handle investigations and uses outside service for autopsies. On an average for the past 5 years the cost of professional services has been \$69,000. Outside Contractual Services of \$328 is a shared maintenance contract on the copier in the Purchasing Department. There are plans to purchase a new computer for the Coroner's Office under capital expenditures.

## County Recorder

## ANALYSIS

**OPERATIONS ANALYSIS-**

The Recorder's primary function is the receipt, approval and recordation of land records and other miscellaneous documents. These documents are receipted from title companies, banks, attorneys and the general public. These documents are received from the courier services, the postal service, electronically sent, as well as from walk in customers. Documents are checked for statutory requirements, preliminary information entered into the computer system, document number is assigned, and appropriate fees are calculated and tendered. It is expected that the number of documents sent electronically will increase over the next several years.

**REVENUE ANALYSIS-**

The primary source of revenue for the Recorder's Office is from revenue stamps and recording fees, both of which are dependent on the volume of real estate transactions. Total revenues for FY 2009 are projected to decrease 10% over the 2008 budget. The budgeted decrease comes primarily from the revenue stamps line item with a decrease of \$38,000. The decrease in the Recording Fees and Rental Housing Support Fee revenue is a reflection of the lower volume of recorded documents. These fees are dependent of the number of documents filed, rather than on the value of the recordings.

**EXPENDITURE ANALYSIS-**

Salaries and Wages are the largest expenditure within the Recorder's Office making up 98% of total expenditures. Total salaries increased by \$14,374, supplies decreased by \$2,926, and other services and charges decrease by a total of \$3,423. This was mainly due to costs shifts to the Document Storage Fund. There are no planned expenditures for Outside Contractual or Capital Expenditures for the 2010 fiscal year budget.

## Sheriff Law Enforcement

### ANALYSIS

#### OPERATIONS ANALYSIS-

#### REVENUE ANALYSIS-

Although projected revenues for 2009 are down in 2010 there are plans to increase some fees in the sheriffs department, with the recommendations of the consulting firm that conducted a cost study of the fees in the sheriffs department. This is reflected in the increase in fees from 2009 projects and the amount budgeted. Other revenue includes shared federal revenue for Seized and Forfeited Property of \$9,800.

#### EXPENDITURE ANALYSIS-

The total increase over the 2009 FY Budget for the Law Enforcement Department for 2010 is \$102,145. Salaries and Wages increased \$141,099 due to union and non-union negotiations. Personal Benefits decreased by \$29,350 due to the move of training and education to the line items for Other Services and Charges. Supplies decreased by \$6,856 due to a decrease in the planned purchase of Books and Periodicals, and Food Purchases. Other Services and Charges increased by \$34,464 due to the addition of Training and Education. Major maintenance agreements under Outside Contractual Services include \$25,000 for the Mobile Data Computer User Fees. Machinery and Equipment decreased by \$31,710. Planned purchases for the 2010 FY Budget include six squad cars and one SUV, all equipped with emergency lights, sirens, portable radios and protective screens. There are also plans to purchase seven mobile radios. A decrease of \$5,500 for the transfer to the COPS Fund was also planned in the 2010 FY.

### ANALYSIS

#### OPERATIONS ANALYSIS-

##### REVENUE ANALYSIS-

The revenue sources for the Treasurer's Office is through Publications Fees and Treasurer Services to outside agencies. In 2010 Treasurer Services from outside agencies was increased by \$14,000 due to additional services provided by the use of the County's software system.

##### EXPENDITURE ANALYSIS-

The Treasurer's Office operates at a low cost to taxpayers. The staffing level of 7 FTEs has remained stable over the years, even in the face of increased work loads - both in terms of number of parcels and dollars collected. The treasurer's budget has decreased for the office which was accomplished in large part by the Treasurer's use of the Automation Fund for allowable expenditures previously supported by the General Fund, and through innovative and improved business practices.

The Chief County Assessment Office has been successful in expediting the county tax cycle and ensuring that the distribution of the tax burden in Rock Island County is fair and equitable for all property owners. The County Assessment Office assist and supports the Township Assessors in achieving equitable assessments. The office staff assists taxpayers with homestead exemptions and questions related to properties in Rock Island County. The staff also reviews all property transfer information and makes necessary changes to the tax rolls and tax maps. They work closely with other county offices and taxing bodies to provide assessment information that is critical in the budget and levy process. The Illinois Department of Revenue provides the Assessor's Office with periodic instructions, and verifies assessment accuracy through abstracts and reports the Assessor prepares for them.

#### REVENUE ANALYSIS-

The primary revenue is the 50% reimbursement from the Department of Revenue for the salary of the Supervisor of Assessments. The fees collected by the assessor remains unchanged, which are collected for any copies requested by the public. These fees have declined over the years due to the readily available information that is on the County's web-site.

#### EXPENDITURE ANALYSIS-

The County Assessment Office serves the taxpayers of Rock Island County by performing statutory duties as mandated by the Illinois State Constitution and the State Legislature. There were no significant changes in the budget for the County Assessor compared to the previous year. The total increase was \$1,844 due to increases in salaries and wages. Personal Benefits for training and education has been moved to other services and charges in this years budget.

#### DESCRIPTION

The County Assessment Office assists and supports 19 Township Assessors of Rock Island County. The office reviews property transfer information such as deeds, surveys, plats, last wills and trust documents, so that changes to the tax rolls and tax maps are accurate. This work is done with the cooperation of other County offices, including the County Clerk, GIS, Recorder of Deeds and the County Treasurer.

**OBJECTIVES**

1. Hold an annual instructional meeting for assessors.
2. Maintain and enter owner occupied exemptions and distribute information to senior citizens.
3. Review the status of non-homestead exempt parcels each year. Review and sign new applications after the Board of Review
4. Review and enter to work of the township assessors.
5. Hold a formal hearing in June with the County Farmland Review Committee (FARC).
6. Review the assessments to determine if any additions or corrections need to be made. Determine applications of township equalization factors.

## Board of Review

The Board of Review responds to assessment appeals filed with the Illinois Property Tax Appeal Board. The Board of Review is responsible for granting or denying Homestead Exemptions; the Board also processes Applications for Non-Homestead Property Tax Exemptions by reviewing those applications and writing recommendations before forwarding them on to the Illinois Department of Revenue for a final determination. The Board also provides Sales Ratio Study appraisals for use in the calculation of the Township median levels.

The Board of Review also processes destruction abatements by viewing those properties when necessary to verify the accuracy of those claims. The Board puts omitted properties on the tax rolls and signs action as needed. In conjunction with the Supervisor of Assessments, the Board of Review initiates and processes Certificates of Error. The Board of Review also verifies the calculations of Township Multipliers for Rock Island County. The Board of Review goes into formal session in May or June. Starting in July the Board of Review receives Property Tax Assessment Complaints. The Board reviews the evidence pertaining to those complaints, views parcels as required and conducts formal hearings when requested. The target date for completion of all decisions on complaints is December 31 of each year. Its operations are supported by the General Fund.

### MISSION STATEMENT

The Board of Review will perform all duties as required by law to procure a full, fair, and impartial assessment of all property.

### ANALYSIS

#### OPERATIONS ANALYSIS-

#### REVENUE ANALYSIS-

The revenue has declined because we are not receiving the fees from the AutoAgent for automating tax collections with the banks.

#### EXPENDITURE ANALYSIS-

Total expenditures decreased by \$17,041. This is mainly due to the elimination of one position in the department. The Senior Computer Operator is performing the Switchboard Operators duties due to a retirement. This position will not be replaced in the 2010 budget. Outside Contractual Services of \$70,576 include the New World Systems Maintenance Agreement for the accounting software of \$39,082. Capital Outlays include 4 new PCs at \$4,400, a server for \$3,600 and a network switch for \$9,160.

#### DESCRIPTION

The IS Department provides technology support and service delivery to the County's various departments. This includes the County's accounting system that supports its financial reports, accounts payable, payroll, purchasing and the budget. Service delivery is provided in the form of programming and software development/maintenance to a number of the County departments using the AS 400 for the treasurers process for real estate taxes. Data entry for payroll is handled through IS along with the printing of both payroll checks and A/P checks.

#### OBJECTIVES

1. Meet with county departments to discuss new application systems.
2. Meet with county departments to discuss problems, system modification, and enhancements to existing application systems.
3. Analyze the workflow to determine computer programming needs or changes.
4. Analyzing and correcting application program problems.
5. Training for application systems developed by the IS programmers and to answer questions about these systems.
6. Assistance with data transfer from one computer system to another computer system provided we have the necessary equipment needed for the transfer.
7. Assistance with purchased software selection, implementation, maintenance and support.
8. Create technical documentation (user, operator and programmer instructions).
9. Maintain archived data.

### DESCRIPTION

The Rock Island County Zoning and Buildings Department is responsible for zoning, building property maintenance, planning, storm water and floodplain ordinances. The Zoning Department assists residents with zoning requests, questions, applications for variances, rezoning requests and special use permits, as well as investigating complaints regarding zoning violations and overseeing regulations. The Department is responsible for enforcement of the County Building Codes, including reviewing plans for new and altered construction projects, issuing building permits and occupancy permits and on-site inspections.

The Building Department is charged with oversight of the development of land and with ensuring that when homes, businesses, factories or other facilities are built in Rock Island County, they comply with national, state and local codes that were written to protect the public health and safety. The Building Department is the branch of County Government that reviews development and building plans, approves how new facilities are tied into existing infrastructure. They also issue permits for buildings or remodeling homes, businesses and other structures. They also register licenses for a variety of trades workers engaged in construction in mechanical, electrical, plumbing and related fields along with inspections for liquor licenses.

### OBJECTIVES

1. Ensure conformance with all Statutory and Ordinance requirements related to zoning cases and decisions made by the Zoning Board of Appeals and the County Board.
2. Ensure timely and informed decisions by the Zoning Board of Appeals and the County Board that are consistent with all adopted policies and plans.
3. Provide equitable, knowledgeable, and responsive services to all applicants, citizens and elected officials.
4. Maintain proper documentation of all decisions by the ZBA and County Board.

## Court Services

### ANALYSIS

#### OPERATIONS ANALYSIS-

#### REVENUE ANALYSIS-

Total revenues for Court Services is expected to decline by \$104,076 for the 2010 FY budget over the 2009 FY. This is mainly due to the drop in State reimbursements for Probation Officers salaries, which was conservatively set due to the States fiscal crisis. However, the reimbursement will be monitored closely in anticipation of possibly collecting more in this area. Expected revenues of \$35,600 for Electronic Monitoring is expected to greatly improve from the 2009 fiscal years budget due to more individuals being place on Electronic Monitoring by Court Orders.

#### EXPENDITURE ANALYSIS-

Salaries and Wages increased by \$50,939 over the previous years budget due to salary increases. Supplies have been reduced by \$14,596 for the next fiscal year budget. These reductions where in spending in books and periodicals, small tools, repairs and maintenance and operating supplies. Some of these costs have been diverted to the Probation Services Fee Fund. Other Services and Charges include travel expenses for the probation officers at \$19,500, Communications (cell phones, postage) at \$24,375 and Public Utilities at \$17,550. Also included are Outside Contractual Agreements for the Electronic Monitoring at a cost of \$10,725. Transfers include amounts transferred to the Child Placement Fund for placement of juveniles at various facilities. It also includes a transfer to Youth Services Bureau from fees collected by the Circuit Clerk for the Youth Diversion Fees, which are deposited in the General Fund. Capital Outlays for the 2010 include carpeting for 13 rooms at Ostrum Hall and the painting of the exterior of the building.

## Public Defender

### ANALYSIS

#### OPERATIONS ANALYSIS-

#### REVENUE ANALYSIS-

As in past years, the State Legislature budgeted for funding 66.6% of the Public Defender's salary. In 2009 and 2010 the budget reflects the amount actually received or expected to be received from the State. Regardless of the State's budget problems, it is presumed the County will receive what the State has allocated as a reimbursement for the Public Defender's salary.

#### EXPENDITURE ANALYSIS-

The total increase in expenditures for the Public Defender's Budget will be \$7,865. Salaries and Wages increased by \$10,505 due to agreed upon increases with the County Board's approval. Personal Benefits have been moved to other services and charges which in the previous year reflected training and education. Supplies increased by \$2,181 due to books and periodicals being added to the budget this year in the amount of \$3,120. However, other supplies were decreased by \$939. Other services and charges reflect a decrease of \$4,306 mainly due to a decrease in professional services of \$5,375 and the addition of training and education of \$3,120. Under Capital Outlays the budget for 2010 includes amounts to purchase two computers (including monitors and software) and funds to purchase Dragon Naturally Speaking Software and recorder.

#### DESCRIPTION

The Office of the Public Defender provides legal representation for defendants in criminal, juvenile and mental health matters, who can not afford an attorney or who, pursuant to the Illinois State Constitution, are entitled to legal representation. The Public Defender does not represent individuals in civil matters, other than mental health matters, and does not represent individuals involved in child support or contempt cases. The Public Defender is not "a free attorney". Convicted defendants, who are found able to do so, are required to pay a fee to the Public Defender, pursuant the Illinois Supreme Court Rule 18.

#### OBJECTIVES

1. Retain valued employees.
2. Educate staff regarding new issues in legal defense.
3. Provide the necessary tools to meet the goals of our mission statement.

### ANALYSIS

#### OPERATIONS ANALYSIS-

#### REVENUE ANALYSIS-

The Human Resources Department is not a revenue generating department and is supported by General Fund Revenues.

#### EXPENDITURE ANALYSIS-

The driving factor under the Human Resources budget is the Personal Benefits line item, which pays for the County's portion for all General Fund Employees on the Employee Health Benefit Plan. In 2009 a new committee was formed which consists of a representative from each of the bargaining units along with the HR Director and one Elected Official. The Committee's purpose is to make decisions concerning the EHB plan and determine what is best not only for the employee's but the plan as a whole. A consultant has been used to give knowledgeable insight to the members of the committee, which through a contractual agreement.

## Purchasing

### ANALYSIS

#### OPERATIONS ANALYSIS-

##### REVENUE ANALYSIS-

The revenue source for the Purchasing Department is for services provided to outside agencies for copy or printing services. The revenue is projected at \$13,000, which is the same amount that was projected in the previous years budget.

##### EXPENDITURE ANALYSIS-

Total expenditures decreased by \$2,112 compared to the previous years budget. Salaries and Wages increased \$4,156. However, supplies and other services and charges decreased in total by \$6,268. All departments in the General Fund and all other funds are billed for their usage of supplies needed from the purchasing department and printing services. The amounts billed are then credited back to the expense line items under the Purchasing Departments budget. The amounts budgeted for these line items is necessary due to the system not allowing negative line items when purchase orders are entered. As these amounts are entered the ending balances are the total expense for the Purchasing Department only.

## **Special Revenue Funds**

Special Revenue Funds are for those funds whose revenues are dedicated for a specific purpose. For example, gasoline taxes collected for Motor Fuel Tax, are generally restricted to transportation related purposes. Several programs rely on dedicated property tax levies such as the County's Veteran's Assistance Fund. General Fund monies, which general use in nature, may be used to supplement special revenue funds via transfers or subsidy, such as the County's Child Placement Fund. For organizational purposes, this section includes bond-funded construction projects, and the debt service of those costs.

Note: Since this is the first year of submission to the Government Finance Officers Association some funds do not include performance indicators because the information was not available. They will be subject to inclusion going forward in the next fiscal years.

## Animal Control -Fund 113 Department 12

## Animal Control

Rock Island County has joined efforts with officials from the cities of East Moline, Moline and Rock Island to build a shelter. The Shelter opened in January 2006. The new shelter is a state of the art facility, offering nearly 100 indoor/outdoor dog runs and an open, cage less cat room. There are medical suites for surgeries to be performed, clinical services and isolation procedures. The function of the facility is to uphold and enforce, as required by State Statute, the Illinois Animal Control Act, Humane Care for Animals and Welfare Act, and local ordinances.

### MISSION STATEMENT

To protect the welfare, health and safety of pets and people and promote responsible pet ownership.

**OPERATIONS ANALYSIS-****REVENUE ANALYSIS-**

Revenue sources are expected to increase due to an increase in registrations, adoptions and the services provided through the clinic. It is hoped that the shelter will be in a better position to support itself this coming fiscal year without as much being transferred from the General Fund through operating transfers.

**EXPENDITURE ANALYSIS-**

The total budget increased by \$124,875. This is due to Salary and Wages increases of \$109,436 due to the addition of a clerical specialist and in union and non-union increases. Personal Benefits increased due to salary increases. Supplies decreased by \$2,000 due to budget cuts. Other Services and Charges increased due to the cost of providing services through the outside contractual costs of the Veterinarian Services. There are no plans for capital outlays in this fiscal year. Debt service is the charges for the use of credit card services provided through the shelter and is expected to increase by \$300.

**DESCRIPTION**

The Animal Control Department is funded primarily from the fees for registration, fees for vaccinations, fees for spay/neutering, fines for ordinance violations, clinic services and cremations.

**Shelter Facts:**

Animal Control functions are provided in Moline, Rock Island, East Moline and all of Rock Island County.

Medical suite, providing exams, vaccinations, blood tests and spay/neuter surgeries

Provide separate dog pavilions for incoming and adoptable dogs.

Provides a sub-station for Rock Island County Sheriffs deputies

On-site crematory

On-site laundry facilities

Provide a get acquainted area for people to interact with dogs and cats, when considering adoption.

Full adoption services of pets.

Open seven days a week.

**OBJECTIVES**

To be progressive in the animal welfare field by providing quality care to the animals; an aggressive spay and neuter program; and striving for placement of all adoptable pets where euthanasia is performed as a last resort. The shelter wants to provide high quality animal control services for the unincorporated areas of Rock Island County and for the contracting cities. It has the goal of maintaining an animal control facility that meet the highest standards possible and provide efficient registration services for pet owners in Rock Island County.

**Arrestee Medical Costs -Fund 152 Department 08**

## Arrestee Medical Costs

Illinois State Statutes states under 730 ILCS 125/17 the County shall be entitled to a \$10 fee for each conviction or order of supervision for a criminal violation, other than a petty offense or business offense. The fee shall be taxed as costs to be collected from the defendant, if possible, upon conviction or entry of an order of supervision. All such fees collected shall be deposited by the County in a fund to be established and known as the Arrestee's Medical Cost Fund.

### MISSION STATEMENT

To collect what is due to the County in order to defray the medical costs incurred by the County on behalf of an arrestee.

\$ 99,884	\$ 132,633	\$ 69,306	\$ 70,790	\$ 76,384	\$ 77,884

#### REVENUE ANALYSIS-

The source of revenue for this fund are generated through fees collected through the Circuit Clerk's Office. Estimates were increased some due to indicators from the 2009 FY estimated revenues.

#### EXPENDITURE ANALYSIS-

The only expenditure incurred is the transfer of \$28,500 to the General Fund to defray the costs of medical care for persons in need of medical care while they are incarcerated in the County jail. In 2008 \$100,000 was transferred to the General Fund because the fund was accumulating a considerable amount of money and medical costs were extremely high in the correctional facility.

## Human Resources Liability - Fund 127 Department 29

## Human Resources Liability

The Tort Immunity Tax Fund is established pursuant to 745 ILCS 10/9-107 to provide an extraordinary tax for funding expenses relating to tort liability, insurance, and risk management programs. Under the direction of the Human Resources Director this department works with the Civil Division of the States Attorney. Among the various duties are the handling of worker's compensation, tort liability claims and unemployment. Also, under the direction of the County Board it coordinates all insurance policies, procedures and policies.

### MISSION STATEMENT

To provide the necessary liability insurance coverage to the County and its employees at the lowest cost.

### REVENUE ANALYSIS-

This fund is supported through a property tax levy. It also receives reimbursements from other funds under the cost allocation plan.

### EXPENDITURE ANALYSIS-

Salaries and Wages decreased by \$25,452 due to a shift of half of the HR Director's Salary to the General Fund's Human Resources Department. This is the reason for the decrease in personal benefits. Supplies decreased due to a review of past spending in this line item. Other Services and Charges include Worker's Comp., Unemployment and Tort Liability payments. It is hoped this year Rock Island County will decrease the amount paid out, especially under unemployment.

## COPS FUND

This fund started in 1999 as a grant with the U.S. Department of Justice. The grants purpose originally was to defray the cost of extra law enforcement deputies with the received grant money for a 3 year period with matching funds from the General Corporate Fund. As the years proceeded the federal share would decrease each year. This grant is no longer in effect. However, the fund is now used to account for money received due to various contracts with cities, villages, schools and metro link.

### MISSION STATEMENT

To provide the best possible services to the agencies and other governmental entities, who contract with the County to provide law enforcement.

## Court Document Storage - Fund 153 Department 03

## Court Document Storage Fund

Under Illinois State Statutes 705 ILCS 105/27/3c this fund is described as a special fund to allow the Circuit Clerk to collect an additional fee for the purpose of court document storage. The fees shall be remitted monthly by the clerk to the county treasurer, to be retained in a special fund designated as the Court Document Storage Fund. The costs must be relative to the storage of court records, including hardware, software, research and development costs, and related personnel, provided that the expenditure is approved by the clerk of the circuit court.

### MISSION STATEMENT

To use money collected for document storage as wisely as possible and in compliance with the laws concerning the collection and use of the fees.

## GIS

Pursuant to 55 ILCS 5/3-5018 Rock Island County established the GIS Fund. A Geographic Information System (GIS) is a computer- based tool for mapping and analysing things that exist and events that happen on earth. IS allows integration of all types of data based on the geographic components of the data. GIS technology combines common database operations such as query and statistical analysis with unique visualization and geographic analysis benefits. GIS is a powerful tool for governments and based on the "big picture" of related data.

### MISSION STATEMENT

Implement, maintain and facilitate use of Geographic Information System for Rock Island County, and other agencies as to enhance sharing of strategic information. Also to provide citizens and county employees the best possible access to information regarding the county on its website.

**DESCRIPTION**

Rock Island County began its GIS project in 1996 with the approval of the purchase of digital air photos and a new digital soil survey. Digital conversion began in 1998 by digitizing "paper" mylar tax parcel maps in Auto CAD and editing to Arcinfo. The first phase of the digital conversion process took two years to complete and the second phase is still in progress, in which 2002 digital orthophotography and property records are being used to more accurately "adjust" data such as parcels and street centerlines. The GIS Department has also developed and now maintains accurate addressing data used by the five E911 dispatching centers in Rock Island County. The Computer-aided Dispatching (CAD) system uses a street centerline and address point layer to indicate where the proper emergency service unit should be dispatched.

**OBJECTIVES**

The GIS Department is responsible for the development, maintenance, integration and training of GIS software applications and data layers for all County departments and agencies. Duties include:

- \*accurate parcel maintenance
- \*Tax parcel maps production
- \*Internet Mapping Applications Development
- \*High-end Data Analysis
- \*Master Street Addressing Guide (MSAG) Maintenance
- \*Development and Maintenance of Rock Island County's website

## Illinois Municipal Retirement Fund

This fund is used to account for revenues restricted for payment of the County's share of the contribution to the Illinois Municipal Retirement Fund. This is the County employee retirement program. The Illinois Municipal Retirement Fund (IMRF) is a state run defined pension plan for local, school and government employees not covered by other pension plans. The employer's contribution is based on a percentage of total IMRF wages calculated by State appointed actuaries utilizing interest rate, longevity and retirement age assumptions.

### MISSION STATEMENT

To budget the proper amount to cover IMRF payments for General Fund Employees.

**EXPENDITURE ANALYSIS-**

Due to wage increases and rate increases the amount budgeted increased from \$1,962,000 in 2009 to \$2,678,219 in 2010. The County had an option to use a Phase In Rate of 10.27% or 12.75% Actual Rate for Regular Slep Employees and a Phase in Rate of 20.34 for SLEP Employees or Actual Rate of 25.29%. It chose the Phase In Rate to be sent to IMRF. However, for budget purposes it chose the higher rate. This is a \$716,219 difference over the previous year. This is the reason for the dramatic change in fund balance.

Revenues are expected to decrease in 2010 by \$52,208 due to the General Fund not making a \$50,000 operating transfer. However, this will happen on an as needed basis in 2010. With no increase in the files, this fund has struggled to keep up with the costs of running this program.

#### EXPENDITURE ANALYSIS-

Expenditures are expected to increase \$4,926 in the 2010 FY. This is due to salaries and benefits increases.

**REVENUE ANALYSIS-**

The revenues for this fund are the direct result of a tax levy. The maximum rate is .10% per \$100 of assessed valuation. In 2009 the rate was set at .10%. However, in the FY 2010 budget it is expected to amount to .098% of \$100 of assessed valuation. Other receipts are from the shared revenue with the State of Illinois. This fund is used to transfer to the State its portion of Medicaid.

**EXPENDITURE ANALYSIS-**

The expenditure for this fund is a transfer to the Hope Creek Care Center with the purpose of maintaining the home with the levied property tax. Also, this fund is used to provide for the money received and disbursed to the State for their portion of the federal money that is for Medicaid residents.

### DESCRIPTION

The county collector in all counties may assess to the purchaser of property for delinquent taxes an automation fee of not more than \$10 per parcel. The fee is paid at the time of the purchase if the record keeping system used for processing the delinquent property tax is automated or has been approved for automation by the County Board. The Automation Fund provides for the technology needs of the County Treasurer in the operation and development of the tax collection system, including computer/technology needs and replacement as opposed to the General Corporate Fund.

### OBJECTIVES

To purchase hardware, software, research and development, to automate the property tax collections and support needed for those collections.

### REVENUE ANALYSIS-

The Veteran's Assistance Funds only source of revenue is property tax. The levy for this year will remain the same as FY2009 at \$400,000. The maximum levy rate is .03% per \$100 of assessed valuation. The levy set at \$400,000 would mean an approximate rate of .0178% per \$100 of assessed valuation.

### EXPENDITURE ANALYSIS-

In 2008 and 2009 there was an extremely high amount of individuals requesting assistance and it is expected to continue in 2010 as more and more service people are discharged. It was a difficult decision for the budget committee to keep assistance at the same levy, which meant cutting assistance from \$240,000 in FY 2009 to \$144,000 in FY 2010. This will be approximately \$12,000 per month has been allotted for assistance.

**Hotel/Motel Tax - Fund 135 Department 32**

## Hotel/Motel Tax

The corporate authorities of any County may by ordinance impose a tax upon all persons engaged in such County in the business of renting, leasing or letting rooms in a hotel which is located in the unincorporated areas of the County. In 1990 the Rock Island County Board passed an ordinance imposing such a tax at a rate of 5% of the gross rental receipts from such renting, leasing or letting. This in accordance with State Statutes 55 ILCS 5/5-1030.

### MISSION STATEMENT

To adhere to the State Statutes on how these taxes can be used.

### REVENUE ANALYSIS-

The revenues from these funds have remained fairly consistent over the years. The County did collect some revenues after the adoption of its ordinance in 1990, however during the course of time many of the hotels were incorporated into various cities and villages. In 2007 a new hotel was constructed at the Quad Cities International Airport, which is located in the unincorporated area of Rock Island County. This is when the revenue stream began.

### EXPENDITURE ANALYSIS-

In the 2010 Fiscal Year it is expected to transfer \$25,000 to Niabi Zoo and transfer \$12,000 to the Quad Cities Convention and Visitors Bureau.

## TBA FUND

The Taxing Body Assessment Fund is used to fund appraisals when one is necessary in a tax appeal case. This fund was established in partnership with other governing bodies that receive property tax revenues. The arrangement is that each taxing body help pay for appraisals when needed to fight tax appeals and the amount of reimbursement from each body is prorated according to the amount of tax dollars received.

### MISSION STATEMENT

To assure that an appeal is fair to the taxing bodies who received property tax revenue from the individual or business that has file an appeal.

The Debt Service Fund is utilized to account for the payment of interest and principal related to the costs on the County's general long-term debt. The County has only one debts service fund. This was established for the repayment of the bonds issued for the construction of the Justice Center. The levy proposed is to cover the lease agreement between Rock Island County and the Public Building Commission.

The Capital Projects Fund is used to account for all expenditures and revenues associated with the acquisition or construction of major facilities that are not financed through proprietary funds or funds being held for other governments. The County had two capital projects for the periods of 2007, 2008, and 2009. The first major facility was the Animal Control Facility in 2007. In 2008 and 2009 the County constructed a new Nursing Home facility which open in 2009. For the FY2010 there are no plans for any major construction projects.

## Special Service Areas

A Special Service Area, when established by Rock Island County Board Ordinance, is a distinct taxing district. Levies and related appropriations that pertain to Special Service Areas are normally enacted by separate County Board Ordinance; as such, Special Service Area levies are not included in the annual County Certified to Collect but the levies are set when the other levies are set by the County Board.

Rock Island County has two Special Service Areas and they include: Hillsdale Special Service Area and Zuma Canoe Creek Special Service Area.

The following pages indicate the budgets for these Special Service Areas.

**Hillsdale Special Service Area - Fund 183-Department 18**

### Hillsdale Special Service Area

Pursuant to authority vested in the Rock Island County Board set forth 35 ILCS 200/27-25 and 200/27-75 (2006), enacted by General Assembly: Be it resolved by the County Board of Rock Island County, Illinois, as follows: That there will be required to be raised by general taxation the amount hereinafter set down to be levied upon all taxable property in the Hillsdale Special Service Area, in Rock Island County, Illinois, for the year 2009, for the purpose of improving maintaining, repairing, constructing, and reconstructing interim flood control levees and appurtenance, or for reimbursing the County for funds previously advanced for said purpose by the County within the limits of said Hillsdale Special Service Area or adjacent thereto, and for the payment of lands, easements, or rights-of-way required by the County for such purposes, and there be and there is hereby levied upon all taxable property in said Hillsdale Special Service Area, in the said County of Rock Island, for such year, the sum of eight thousand (\$8,000) dollars for such purpose.

It is estimated that the assessed valuation will increase approximately 1.9% in the next tax cycle making the estimated assessed valuation for Rock Island County \$2,287,646,774. Using this valuation the estimated extension rate for the total levy should be approximately \$ .7572 per every \$100 of assessed valuation. This projections will mean the tax rate for the County will remain unchanged from the previous year.

## BUDGET GLOSSARY

The Annual Budget contains specialized and technical terminology that is unique to public finance and budgeting. To help the reader better understand these terms, a budget glossary has been included in the document.

**Accountability:** Term used by the GASB to describe a government's duty to justify the raising and spending of public resources. The GASB has identified accountability as the "paramount objective" of financial reporting "from which all other objectives must flow."

**Accrual Accounting:** Method of accounting that recognizes the financial effect of transactions, events, and interfund activities when they occur, regardless of the timing of related cash flows.

**Actual:** The actual figures in the budget document are year-end actual totals for the fiscal year proceeding the current year.

**Appropriation:** An authorization made by the County Board which permits the County to incur obligations and to make expenditures of resources.

**Appropriation Ordinance:** The official enactment by the County Board to establish legal authority for County officials to obligate and expend resources.

**Assessed Valuation:** A value that is established for real or personal property for use as a basis for levying property taxes. (Note: Property values are established by the Township Assessors or the County Assessor.)

**Audit:** A comprehensive investigation of the manner in which the government's resources were actually utilized. A financial audit is a review of the accounting system and financial information to determine how government funds were spent and whether expenditures were in compliance with the legislative body's appropriations. A performance audit consists of a review of how well the government met its stated goals.

**Balance Sheet:** A financial statement that discloses the assets, liabilities, reserves and balances of a specific governmental fund as of a specific date.

**Bond:** A written promise to pay a sum of money on a specific date at a specified interest rate. The interest payments and the repayment of the principal are detailed in a bond resolution. The most common types of bonds are general obligation and revenue bond. These are most frequently used for construction of large capital projects, such as buildings, park improvements, roads, and bridges.

**Budget:** A financial plan for a specified period of time (fiscal year) that matches all planned revenues and expenditures with various County services.

**Budget Amendment:** A legal procedure utilized by the County Board to revise a budgeted service area appropriation. Illinois law requires approval through the adoption of a resolution for any interdepartmental or interfund adjustments or for a transfer within a department from one line item to another.

**Budget Calendar:** The schedule of key dates or events which County departments and authorized agencies follow in the preparation, adoption, and administration of the budget.

**Budget Document:** The instrument used by the budget-making authority to present a comprehensive financial program to the County Board.

**Budgeted Funds:** Funds that are planned for certain uses but have not been formally or legally appropriated by the legislative body. The budget document that is submitted for Board approval is composed of budgeted funds.

**Budget Message:** Included in the opening section of the budget, the County Finance Chairperson's letter of Transmittal provides the County Board with a general summary of important budget issues.

**Budget Year:** A term used in the budget formulation process to refer to the fiscal year for which the budget is being considered. For Rock Island County is it December 1 through November 30.

**Budgetary Control:** The control or management of a governmental unit in accordance with an approved budget for the purpose of keeping expenditures with the limitations of available appropriations and available revenues.

**Capital Expenditure:** Expenditures that are usually construction projects designed to improve the value of the government assets. Examples of capital expenditures include new roads, buildings and large scale remodeling. Also included are capital equipment purchases such as vehicles, furniture, machinery, building improvements, microcomputers and special tools, which are usually distinguished from operating items according to their value and projected useful life.

**Cash Basis of Accounting:** A basis of accounting that recognizes transactions or events when related cash amounts are received and disbursed.

**Cash Management:** The management of cash necessary to pay for government services while investing temporary cash excesses in order to earn interest revenue. Cash management refers to the activities of forecasting the inflows and outflows of cash, mobilizing cash to improve its availability for investment, establishing and maintaining banking relationships, and investing funds in order to achieve the highest interest and return available for temporary cash balances.

**Current Taxes:** Taxes that are levied and due within one year.

**Debt Service:** The annual payment of principal, interest and handling charges on the County's bonded indebtedness. The payments made are in accordance to a pre-determined payment schedule.

**Debt Service Fund:** Governmental fund type used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest.

**Department:** A major organizational unit of the County which has been assigned overall management responsibility for an operation or a group of related operations within a functional area.

**Disbursement:** Payment for goods and services in cash or by check.

**Estimated Revenues:** The amount of projected revenue to be collected during the fiscal year. The amount of revenue appropriated is the amount approved by the County Board.

**Equalized Assessed Valuation (EAV):** The assessed value multiplied by the State equalization factor to yield the value of property from which the property tax rate is calculated after deducting exemptions and the value of tax increment financing districts and enterprise zones.

**Expenses:** This term is used as an appropriation sub-object account category to differentiate from personal services, supplies, capital and equipment costs.

**Expenditure:** This term refers to the outflow of funds paid for an asset obtained or goods and services obtained. This term applies to all funds.

**Fees:** A general term used for any charge associated with providing a service or permitting an activity.

**Financial Policies:** General and specific guidelines adopted by the County Board on an annual basis that govern budget preparation and administration.

**Fiscal Year:** The time period designated by the County signifying the beginning and ending period for recording financial transactions. Rock Island County's fiscal year runs from December 1 to November 30.

**Fixed Assets:** Assets of long-term character that are intended to continue to be held or used, such as land, building, machinery, furniture and other equipment.

**FTE:** Full-time equivalent; an authorized position equivalent to working 2,080 hours in a year.

**Fund:** An accounting entity that has a set of self-balancing accounts and that records all financial transactions for specific activities or government functions. Eight commonly used funds in public accounting are: general fund, special revenue funds, debt service funds, capital project funds, enterprise fund, trust and agency funds, internal service funds and special assessment funds. Rock Island County does not have any enterprise funds.

**Fund Balance:** Fund balance is the excess of assets over liabilities and is therefore known as surplus funds.

**GAAP:** Generally Accepted Accounting Principles. Uniform minimum standards for financial accounting and recording, encompassing the conventions, rules and procedures that define accepted accounting principles.

**General Fund:** The largest fund within the County, the General Fund accounts for most of the financial resources of the government. General Fund revenues include property taxes, licenses and permits, local taxes, service charges, and other types of revenue. This fund usually includes most of the basic operating services, such as law enforcement, finance, data processing, county development services and general administration.

**General Ledger:** A file that contains a listing of the various accounts necessary to reflect the financial position of the government.

**General Obligation Bonds:** Bonds that finance a variety of public projects such as roads, buildings, and improvements; the repayment of these bonds is usually made from the Debt Service Fund, and these bonds are backed by the full faith and credit of the issuing government.

**GFOA:** Government Finance Officers Association of the United States and Canada.

**GASB:** Government Accounting Standards Board that promulgates accounting standards and practices for governments.

**Grant:** a contribution by a government or other organization to support a particular function. Grants may be classified as either categorical or block depending upon the amount of discretion allowed the grantee.

**Interfund Transfers:** Amounts transferred from one fund to another.

**Intergovernmental Revenue:** Revenue received from another government for a specified purpose. In Rock Island County these are funds primarily from the State of Illinois.

**Internal Service Fund:** Funds used to account for the financing of goods or services provided by one department to another department.

**Inventory:** A detailed listing of property currently held by the government.

**Invoice:** A bill requesting payment for goods or services by a vendor or other governmental unit.

**Levy:** To impose taxes, special assessments, or service charges for the support of County activities.

**Line-Item Budget:** a budget that lists each expenditure account (salary, supplies, travel, outside contractual, etc) separately, along with the dollar amount budgeted for each specified category.

**Long-Term Debt:** Debt with a maturity of more than one year after the date of issuance.

**Modified Accrual Accounting:** a basis of accounting in which expenditures are accrued but revenues are accounted for on a cash basis. This accounting technique is a combination of cash and accrual accounting since expenditures are immediately incurred as a liability while revenues are not recorded until they are actually received or are "measurable" and "available for expenditure". Since this type of accounting basis is a conservative financial approach, it is recommended as the standard for most governmental funds.

**Object Code:** An expenditure category, such as personal services, supplies, or equipment.

**Operating Budget:** The portion of the budget that pertains to daily operations that provide basic governmental services. The operating budget contains appropriations for such expenditures as personnel, supplies, utilities, materials, travel and fuel.

**Operating Fund:** A fund restricted to a fiscal budget year.

**Personnel Costs:** Salaries and Wages paid for services performed by employees of the County.

**Property Tax:** Property taxes are levied on both real and personal property according to the property's taxable valuation and the tax rate.

**Property Tax Rate:** The amount of tax stated in terms of a unit of the tax base (e.g. one cent per \$100 of taxable assessed valuation is written 0.0100).

**Revenue:** Funds that the government receives as income. It includes such items as tax payments, fees from specific services, receipts from other governments, grants, shared revenue, and interest income.

**Revenue Bonds:** Bonds usually sold for constructing a project that will produce revenue for the government. The revenue is used to pay the principal and interest of the bond.

**Reserve:** An account used to indicate that a portion of a fund's balance is legally restricted for a specific purpose and is, therefore, not available for general appropriation.

**Risk Management:** An organized attempt to protect a government's assets against accidental loss in the most economical method.

**Special Revenue Fund:** A fund utilized to account for revenues derived from specific sources which are usually required by law or regulation to be accounted for as a separate fund.

**Tax Increment Financing (TIF):** A tax incentive designed to attract business investment by the dedication of property and sales tax revenue from the redevelopment area (TIF District) to finance development-related costs in that district.

**Voucher:** A claim document indicating that a transaction has occurred. It usually contains the accounts related to the transaction.
